

Please do NOT expand LPFM service. Our community is already best served and benefitted by existing programs offered by AIR 1. I hope the FCC is not one of the government agencies that likes to "fix" things that aren't broken, just to justify their existence? We are very happy with the public benefit and positive community impact already provided by our local AIR 1 stations. We don't want a Howard Stern wanna-be, or ANYTHING else, to replace the positive, wholesome, and uplifting programming we currently receive from AIR 1. Please do the right thing and do NOT expand LPFM service. Thank you!
